PRINCIPAL'S REPORT

2011 has been another fantastic year for Wingham High School. There have been so many achievements by both staff and students that I am sure I would miss out on mentioning many of them if I was to try to list them all.

One of the more recent ones that stands out in my mind is the annual production. This year's "Murder in the Music Hall" Theatre Restaurant was a great event. Apart from the many talents on display one thing that stuck in my mind about the whole production was the sense enjoyment emanating from all the students and the fun they had from being part of a larger team. Thank you to all the staff who contributed to such a fantastic event particularly Stacey Harrell, Merilyn Kendall and Lynda Nash.

Another is the fantastic Technological and Applied Studies (TAS) work from across the district that was showcased at Bunnings. Wingham High School contributed projects from Wood, Metal and Textiles & Design many receiving recognition awards and several taking out major awards. Details of these awards can be found in Mr Taylor's report later in this newsletter. At the same time as the local awards 3 of our Year 12

students (Jack Bevitt, Ryan Haley and Michael Stocks) received news that their projects had been recognised as being of the highest standard across the state by being accepted into the institute of Industrial Arts Technology Education display at the Hordern Pavilion. While Jack Bevitt's trailer for D & T was nominated by Board of Studies for display at the Powerhouse Museum. Congratulations and thanks must also go to TAS Teacher Mr Dave Irvine, for his tremendous expertise, support and guidance.

Over the entire year student participation and success in academic performance, creative and performing arts, sport and leadership are all celebrated and rewarded through formal Junior and Senior assemblies, Excellence assemblies and Graduation assemblies culminating in this week's end of Year Presentation evening. Mrs Jenny McPhan is to be thanked for the huge amount of time, energy and passion she puts into the excellence, graduation and presentation assemblies as well as The Year Advisers for the Senior & Junior assemblies along with Mr Murray Doust and Mr David Jonas for the Sports Assembly. They are a true reflection of the opportunities that are provided for our students to participate and succeed and the recognition which is given to those that do.

HSC Design & Technology & Timber projects

ACROSS THE DEPUTY'S DESK ...

It seems like quite a while ago that I first wrote for the newsletter and so much has happened since. Time seems to have flown and I almost feel as though I am becoming part of the furniture at Wingham High... a thought that really pleases me.

Year 7 settled into high school well and seemed to take up the challenge to engage and be responsible for their learning. I attended Mrs Doust's 7Armstrong Science class and we all made sherbet – both fun and yum – although some were a bit acidic for my palette. Year 7 also made some pretty great artworks and clayworks this year. All in all, I'd say we all settled in well together. There've been a few hiccups towards the end of the year with some 'breakout' behaviour – but it's quite the minority!

Year 9 are enjoying the freedom of choice that comes with elective learning. There are some terrific projects, artworks, food and music flowing when Year 9 are in electives and I believe the performances by the Year 9 band at the Big Night Out and in the school production last week symbolises their passion for elective learning. The core subjects are also producing quality work and I commend Mrs Portelli and the Maths Faculty for trying to 'Raise the Bar and Close the Gap' with knowledge 'gapping' from the Year 8 course, to cement their current, Year 9 learning. Consistent phone calls home play a part in ensuring a school – home partnership, so that you, as parents, are aware of the latest maths test scores and the level of improvement achieved, or required, in the following module. We've also had a rush of new enrolments into Year 9, so I heartily welcome the students and their parents into the Wingham High School Learning Community. The word is spreading about what a great school this is, so who could blame anyone for wanting to come here?

Year 11 have completed their Preliminary coursework. I have been impressed by Year 11's level of commitment and will to seek better, more efficient time management and organisational strategies: this has become a connected, concerted focus for us in the study skills sessions offered on a Friday and by mentors across the school. I am very proud of the talent Wingham High boasts and, particularly, the Year 11 crew, who shine and come alive when performing. From Big Night Out to Interludes at the School Production to pre evening entertainment at the Year 12 MEC Graduation night to public speaking and debating forays to the new Leadership team for 2012 hosting the Year 12 MEC evening and last night's 2011 Presentation Awards, Year 11 seem ready and able to meet any challenge thrown at them. Their maturity certainly shone through when we discussed introducing a new system for leave passes and I thank them for their input – it was invaluable.

Although I did not have much to do with Year 12, it would be remiss of me not to offer a farewell of sorts. I thank the Leadership team, who have always displayed poise, elegance and professionalism in the roles they undertook. I would also like to acknowledge Mr Irvine's Industrial Technology class, who produced some beautiful pieces as Major Works to be proud of. Hall stands, entertainment units, a queen bed, a futon, a chess board and its pieces, to name a few... All of the items are made from the same medium – different strains or types, but each of the products is unique. The metaphor is clear. The class and its products are efforts they, and their teacher, can be proud of. The same can be said of Year 12 as a whole. Made of the same stuff, but uniquely individual. Their efforts and output will be rewarded when HSC results are released.

Until next time

P & C NEWS

It is near the end of the school year and the year 2011 has almost finished too.

Our canteen has had a busy time in the past few weeks with Lynda catering for the Volunteers Luncheon which was most enjoyable and all volunteers left with a small gift from the canteen. I would like to thank Miss Leslie and her students for helping with this. The Production was also catered for by Lynda and her volunteers, there were over one hundred people to cater for, for each of the two nights the production was held. Many thanks again to Miss Leslie, students, staff. Thank you to the people who helped Lynda on both nights. It would not have been possible without you and a big thank you to Lynda for all of her hard work. Thank you to all of the volunteers who work in the canteen we appreciate all that you do. Lynda works hard right throughout the year and does a wonderful job.

The Year 12 Graduation Ceremony was held recently. Congratulations to all of year 12 for completing their HSC. I am sure your parents and carers are very proud you all looked wonderful on the night.

The P & C and canteen will be implementing Enclosed Shoes to be worn in the Canteen at all times from 2012. This is an Occupational Health and Safety issue and from the beginning of Term 1 2012 this will be enforced. No one will be able to work in the canteen unless they are wearing enclosed shoes.

I would like to welcome Year 7 2012 and their parents and carers to Wingham High School. You will find children will grow up fast once they start High School.

Congratulations to all the students who received awards at the end of year Presentation and to those students who did not receive awards I am sure you are doing your best.

The P & C held it's last meeting for the year on Thursday 1 December. Our next meeting will be Thursday 2 February at 6pm in the Staff Common Room. All are welcome to attend. Many thanks to all of the members of the P & C for all of your time and efforts throughout the year.

I would like to thank our executive of Principal Mr Mark Thomson and Deputy Principals Mrs Kim Dixon and Mr Paul Ivers for all of their hard work and dedication to our school throughout the year.

I hope everyone has a Merry Christmas and Happy New Year. We will see you all again in 2012. The students start back on Monday 30 January 2012.

Thanks

Anne Munns - President

THANK YOU TO WINGHAM HIGH SCHOOL P & C

On behalf of myself and the team I would like to say a very special thank you to the P & C for their financial assistance for the Boys 9/10 Touch Football team's trip to Penrith to compete in the State Championships. With the financial strain on families these days any assistance with the costs involved in these trips is a great help.

The boys finished a very creditable 11th in the state which, for a school of our size, was a fabulous effort.

Thank you again for assisting our students to display their sporting talent in these competitions.

J Morgan

AG SHOW TEAM REPORT

During week 3 the Wingham High School Agriculture Show Team travelled to Scone to compete in the Scone Beef Bonanza. This is New South Wales 2nd largest steer carcass competition involving State, Catholic and Private Primary and Secondary schools from all over the state. Our team achieved some outstanding results and brought great credit to themselves and our school. From a student level Jonty Hemmingway – Year 9 – achieved an outstanding result by winning the Judging Final from a field of over 250 students. She won herself an \$800.00 judging course to be held at Tocal Agricultural College in June 2012. The top 2 placegetters in this event will be invited to represent New South Wales in the Australian Championships.

Results in full are as follows:

- Angus Steer – 5th in Middleweight Class Live and 3rd on the carcass
 - Limousin Steer – 4th in class and 5th out of 255 steers in the carcass results
 - Nikitta Gallagher – Year 8
 - Trae Murray – Year 7
 - Georgia Bramble – Year 11
- } all made their parading finals
- Nikitta Gallagher – 5th in Junior Judging Final
 - Victoria Lee – 2nd in Junior Judging Final
 - Jonty Hemmingway – 1st and Grand Champion Junior Judging 2011 Scone Beef Bonanza

YEAR 9/10 BOYS TOUCH – STATE CHAMPIONSHIPS

Wingham boys gave it their all. On Friday 18th November we competed in the Year 9/10 State Touch Football Championships at Penrith. We ended up with a very creditable 11th out of 14, but in saying that we were only 1 win away from making the quarter finals. Our results were:

v/s	Red Ben College	won	3-2
v/s	Yass	lost	4 – 0
v/s	Sylvannia	lost	3 – 2
v/s	Wagga Wagga	lost	4 – 3

On behalf of Mr Doust and myself I would like to thank the boys for their behaviour and the effort they put in on the sporting field.

Congratulations on a job well done. I would also like to thank Tim Bridge on accompanying us on the trip as our refereeing representative.

THE LAST KINECTION

The Last Kinection an Indigenous Hip Hop trio made up of brother and sister Naomi (Nay)

and Joel Wenitong (Weno), and long time friend Jacob Turler (Jaytee) visited the school to share their story of hope and inspiration with Indigenous students.

Naomi and Joel come from a large family belonging to the Kabbi Kabbi people of South East Queensland.

They spoke to the students about their recent Deadly Award wins and their new album Next of Kin, which very nearly didn't happen. A horror car crash at the end of a tour three years ago had Naomi presumed dead at the scene, until her brother Joel noticed her moving. With spirit and determination the group rehabilitated and are now stronger than ever.

As well as being part of this successful trio Joel is also married with three children and in his 2nd year of a medical degree at Newcastle University.

Singing some of their tracks with the help of some students combined with their story of inspiration left a lasting impression on all who attended.

ENVIRONMENTAL LEADERSHIP CAMP

Nine students from Years 7-10 attended an inspiring environmental leadership camp run by MEEG (Manning Environmental Education Group) on 23-25 November. The group consisted of Emily Roser and Tara Manahan of Year 10, Caley Cameron, Alex Menser, Amy Sheridan, Isaac French, Tara Woolard, Liah Brooks of Year 8 and Denham Callanan of Year 7, all members of WEB (Wingham Environmental Body.) Also at the camp were students from Taree High, Port Macquarie High and St Clares High School. In spite of constant rain, a multitude of hungry leeches and an evacuation on foot due to swollen creeks, the camp was a great success.

The camp used the theme of 'forests' for hands on environmental science activities, leadership skills activities and a variety of expert presenters. Speakers included esteemed palaeobotanist, environmental conservationist, educator and author Dr Mary White who owns Forest Falls Retreat at Johns River, where the group stayed. Other presenters included Erin Masters from J.R.Richards, who provided many ideas and facts about recycling and Dr James Arvanitakis from the University of Western Sydney who provided students with a structure for effecting positive change. Many thanks must go to Kirsty Hughes from MEEG and Mid Coast Water for her thorough organisation of this most worthwhile learning experience.

WINGHAM HIGH STUDENTS EXCELLING IN INDUSTRIAL ARTS

Wingham High students have enjoyed recognition from local and state agencies for their work in a number of Industrial Arts subjects being studied at Wingham High School.

Several senior students that have recently completed their HSC were notified by the NSW Board of Studies and Institute of Industrial Arts Technology Education that their Major Works had been nominated for possible selection and display in Sydney and regional centres in 2012.

Jack Bevitt, Michael Stocks and Ryan Hayley had their Industrial Technology Timber products nominated to go on display at the Working with Wood show at the Hordern Pavilion in June next year. Each project, a Davenport Desk, Hall Stand and Display Cabinet with Leadlight Glass, demonstrated outstanding quality in design, construction and finish. This was a prerequisite for nomination and less than 2% of a possible candidature of over 6000 were chosen.

The three students were all competed strongly within this year's Industrial Technology class to achieve the highest possible marks and rank from within their year. Their teacher, Mr Dave Irvine, was thrilled for the boys and saw this recognition as a just reward for the combined efforts of the students. It should be noted that the tireless effort, commitment

and expectation of quality from Mr Irvine himself was an essential factor in bringing our students to an industry level with their work.

Jack Bevitt's Davenport Desk also received the Major Industrial Arts award at the local Manning Great Lakes High Schools Technology display. This display is made up of students work from local State, Catholic and Independent High Schools from the Great Lakes and Taree areas. Jack received a perpetual trophy, sponsored by United Group Rail along with a substantial monetary prize to help him in his endeavours.

Michael Stocks and Ryan Hayley's Major works were also Highly Commended with both students receiving certificates and prizes in recognition of their work. Several other students in junior years were recognised for their hard work and dedication to achieve quality results at these local awards. Students receiving special awards were; David Edmond Industrial Technology Metal, Matthew Percival Year 9 Graphics, Rhiannon Stuart Textiles, Guy Brown Bunnings Prize and Michael Stocks Bunnings Prize.

Other students who entered the Competition were Jorj Sumpner-Johnston, Caitlin Murphy, Loren Swannack, Marni Schlenert, Blake Sky, Jack Croker, Guy Brown, and David Edmond.

Jack Bevitt also studied Design and Technology in Year 12 and created a Multi Functional Box Trailer that included a galvanised frame, aluminium body, loading ramps and toolbox. Jack received nomination from the Board of Studies to have his job considered for display at the Powerhouse Museum or a regional centre during February and March next year.

Whilst it is not entirely unusual for students to study and complete Major Works in two or more subjects, it is exceedingly rare for them to receive State nominations in both subjects. Like Industrial Technology, Design Tech nominations are only given to projects that achieve at the highest levels in all areas of the marking criteria and exhibit outstanding quality, innovation and design.

Jack also had his trailer recognised at our local display with his project being selected as the best metal project produced in our local schools. He received a significant monetary prize from Manning River Steel for his efforts.

The quality work that is produced by our students deserves recognition and praise. The tireless efforts of all the TAS staff in engaging and encouraging our students to work to the best of their ability underpins this growth and development. The local Technology Awards, co-coordinated by Wingham High School's Graeme Taylor, gives our students the opportunity to demonstrate their achievements and makes us (as their teachers) proud and happy for our kids on many levels.

Damien Keen,
Head Teacher Industrial Arts

CAREER EDUCATION

2011 – YEAR 12 EARLY ENTRY TO UNIVERSITIES / REGIONAL AND ACHIEVEMENT BONUS POINTS FOR 2012

Each year our Year 12 students have the opportunity to apply for Early Entry at a number of Universities. This means students are made an offer of a course/s by the universities before they get their HSC results. There are two types of Early Entry

1. Online – students apply independent of school online to the university – University of Wollongong (UW) & Australian Catholic University (CU).
2. School Recommended – students apply through the school for recommendation by the school to the university – Southern Cross University (SCU), University of New England (UNE), Charles Sturt University (CSU) and Canberra University (CU).

Most of these universities also provide our students with regional bonus Australian Tertiary Admissions Rank (ATAR) points for being part of their regional network. The benefit is 4 to 5 extra ATAR Bonus Points given to students on top of their achieved ATAR though UAC when applied to courses at the individual university. Regional Bonus ATAR Points are also given by The University of Newcastle but they do not provide the opportunity of Early Entry.

Most universities also give Bonus ATAR points for achievement of Band 5 (1 ATAR Bonus Point) and Band 6 (2 ATAR Bonus Points) in HSC courses related to the university course applied for.

Students are recommended to the universities by the school, based on strict criteria, indicating the school's assessment of the student as having demonstrated the ability to successfully complete the university course applied for. The student's work ethic, maturity, interest, aptitude and academic achievement are all part of the consideration for recommendation.

This year we have received the highest number of Early Entry offers in the history of WHS.

The 2011 Year 12 at WHS have been received 46 Early Entry Offers out of 51 Applications. Two of those who have missed the early round are being considered by the university for main Round Offers and two others have Conditional Offers of based on getting a 65.00 ATAR.

The offers include:

SCU – 11/14
UNE – 24/24
CSU – 8/10
UW – 2/2
UC 1/1

Special Course Achievements

2 Students into B. Occupational Therapy
B. Criminology and B. Biomedical Science
B. Physiotherapy
Mining based degrees
Double degree in Commerce

Extra Special Achievement:

One of our non-ATAR students has also been offered B. Nursing by two universities.

PBL CORE VALUE CHAMPIONS!

The Positive Behaviour and Learning team (PBL) launched the new playground rewards system this term. Teachers on playground duty are issuing raffle tickets which students exchange for a Merit Card with their Year Adviser. To be eligible for a raffle ticket students need to meet the following criteria:

- Full school uniform
- Using the playground area correctly
- Interacting appropriately with others
- Area free from litter
- Respectful behaviour
- Positive interactions with others

Raffle tickets are drawn each week on the Tuesday morning assembly. Students who are drawn from the raffle are given a canteen voucher and a 'Core Value Champion' award which is worth 3 Merit Cards in the school merit system.

Our hard working students have begun to reap the rewards for upholding of our Core Values – Trust, Positivity, Respect and Fairness. Congratulations go to Emma Roberts (Year 8), Sarah Ritchie (Year 7) (pictured) and Kaaden Smith (Year 8) who have received Core Value Champion Awards this term!!

The Smith Family

The Smith Family Australia, through Heidi Prowse, run a Literacy program whereby volunteers from Years 8-11 read with and listen to the reading of a buddy student from a Primary School. This year, three Year 8 students volunteered to perform this worthwhile and necessary task to improve the Literacy of students younger than themselves so they, too, can embrace the educational opportunities in front of them as better, more confident readers. We thank them and acknowledge the work of Heidi, and of The Smith Family to offer this terrific volunteer program so that students can benefit and can 'give back to their community' in the spirit of positivity that Wingham High School values as a core ethos.

Well done to all!

Will you volunteer in 2012?

TEXTBOOKS - PLEASE HELP!!!

The number of text books available for students to use in classrooms has dwindled over the year.

Please check your bookcases and study areas at home for any 'stray' Wingham High School text Books.

Mathematics, in particular, has had several go missing from rooms over the year, and while we are sure they have accidentally been packed in bags, we really need them back for students to use in 2012.

If you find any 'strays' at home, please return to the front office of the school.

We really appreciate your effort in this matter.

SCHOOL SUPPLIES

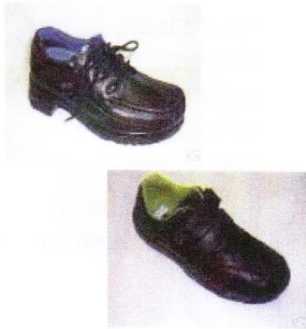

A copy of appropriate footwear for school is attached for your information. Often new footwear and uniforms are purchased over the school summer holiday break so we felt this would be a great time to remind families of what is acceptable.

Industrial Arts aprons are available for purchase from the school canteen at a cost of \$10.00 each. The canteen also supplies Industrial Arts Safety Packs which includes an apron, a set of goggles, a set of earplugs and a dust mask. The Safety Pack is \$20.00 and the canteen has stock of these items at all times. Students that do not have the correct footwear and safety clothing will not be permitted to participate in certain classes due to occupational health and safety regulations that the school must adhere to.

Due to Occupational Health and Safety Regulations from the NSW Department of Education and Training the wearing of appropriate, protective footwear is a mandatory requirement for participation in all practical lessons.

Appropriate Footwear includes: strong, leather shoes which cover the entire foot.

Leather School Shoes

Leather Joggers

Leather Skate Shoes

Inappropriate Footwear - Shoes which do not protect the foot

Leather Shoes which do not cover the top of the foot

All Canvas Shoes

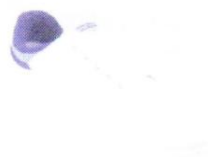

Fabric Joggers

Ballet Shoes

Dunlop Volleys

Thongs
